

AdMed

MEDICAL ILLUSTRATOR

AdMed is currently seeking a Medical Illustrator in our Center City Philadelphia office.

POSITION SUMMARY

AdMed is currently seeking a creative, self-motivated Medical Illustrator who can contribute to our team, create and manage work for our clients, and make an immediate impact.

JOB REQUIREMENTS

- Minimum of 2 to 5 years of experience as a medical illustrator
- Expert knowledge of Adobe Photoshop, Adobe Illustrator, and Adobe InDesign
- High level of knowledge of Autodesk Maya 3D computer graphics software. Understanding of Molecular Maya plug-in is a plus
- Digital painting for storyboards
- Ability to work with a large variety of clients. Orientation toward deadlines when managing time
- Good project management skills, including attention to detail and the ability to handle multiple simultaneous tasks and projects in a fast-paced environment: client interaction, resource allocation, timing of deliverables, etc
- Familiarity with a variety of the field's concepts, practices, and procedures
- Good communication (verbal and written), conceptual and organization skills

Additional skills:

- Agency experience
- Experience in the pharmaceutical industry
- Experience with pharmaceutical mechanism of action (MOA) or pharmacology
- Experience with Adobe After Effects
- General interest in science

EDUCATION REQUIREMENTS

BS, MFA, or MSc degree in Medical Illustration or Biomedical Visualization

JOB RESPONSIBILITIES

- Create engaging and educational medical illustrations that communicate complex medical and scientific concepts
- Ensure anatomic and medical accuracy of illustrations using references
- Use design methods to create work across print, video, animated, interactive, virtual reality and augmented reality formats that communicate complicated topics in simple and transparent ways
- Work with currently existing illustration assets to create new or modified versions while staying consistent to the illustration style
- Collaborate with medical writers, animators, account managers, video producers, and other creative professionals
- Format and communicate complex medical concepts, breaking ideas into digestible pieces using words and imagery that are directed toward various audiences, which may include pharmaceutical salespeople, health care providers, or others
- Ability to research and communicate with scientific accuracy
- Create data-intensive charts and graphs
- Storyboard scientific concepts and ideas
- Digitally paint storyboards for scripted video production
- Draw, not just apply graphic effects

*If all that sounds good to you, let us know. We'd love to meet you!
Please send your resume and cover letter to jobs@admedinc.com
and tell us why you would be the ideal candidate for the job.*
